BROKE THEIR OWN RULES

Complaint That the Commissioners Ignore Civil Service.

AFFECTS TENURE OF OFFICE

Clerk Appointed Without an Examination-Alleged That He Is a Personal Friend of Engineer Commissioner Powell-Good Plan Gone Wrong and Old Employes Ignored.

The appointments and transfers as made by the Commissioners on the 18th of February last and the continuation of that policy in a similar action on Friday has provoked considerable discussion in the engineer department, and no small degree of uncertainty is expressed as to their tenure of office under civil rules adopted

In other words, it is held that the Commissioners violated their order of June 17, 1895, which established civil service rules in the District.

These rules, it is claimed, were held up

as a challenge for the admiration of civil service advocates, as the nearest approach possible to the governmental policy antil Congress should intervene with en-abling legislation for its improvement. It is recalled, also, that applicants for appointments were confronted with the ew civil service plan and were told that

WHEN THE CHANGE CAME. On the 18th of February, however, changes were made in the engineer department, as follows, under an order

which prescribed:
"That the ronowing transfers and changes of employes on subdivisions of lands, high-way extension plans and street lighting livisions and record office, of the engineer lepartment, to take effect February 1, 1896, are hereby made: "M. C. Hazen, transitman, and C. P.

Williams, draughtsman, to be rated at "T. J. C. Pailey, clerk, to be transferred draughtsman, at \$4,50 per diem. "H. C. Gould to be draughtsman at \$4 per

"W. C. Alieu, superintendent of lamps, to be transferred as cierk at \$1,200 per an-

"J. B. C. Shipman, inspector of electric lighting, to be inspector of lamps at \$1,000 per annum." This order, it will be observed, will be no mention is made of an "appointment," although H. C. Gould, who was made a draughtsman at \$4 per day, should have come under that head.

GETS CLERK'S PLACE. Another order was issued on Friday in which Mr. Gould was again the recipient of favor, being appointed a clerk, with com-pensation at the rate of \$1,200 per annum. The appointee is a personal friend of En-gineer Commissioner P owell and halls from sioux Citty, Ia. It is claimed that he re-ceived the appointment solely upon per-sonal considerations and without an ex-amination of any kind as to his fitness for the position, and certainly not upon the

mpetitive plan. competitive plan.

The merit system seems, therefore, to have been "knocked into a cocked hat," as the street planse goes. Clerks who have been in the employ of the District for many Secretary Olney has received a cable dispatch from the United States legation at Constantinople, stating that the British am-based for there had been informed in writing ars, and carried always on the per clem all, were entirely ignored, to accommo-ate the friend of the Engineer Commis-oner, and the reform system inaugurated, y the Commissioners, which gave promise I so much in the interest of meritorious ervice, has been rendered to that degree

The declaration is made that if some of the old employes who have been on the District rolls for years, and have rendered valuable and effective service, would be permitted to talk they could tell of the arbitrary methods under the operation of which they have been repeatedly furloughed in order to make room for some favorite in order to make room for some favorite of either a member of the board or at the solicitation of a Congressman with "inmonth of this shoe business and fluence."

It is charged that in order to effect the transfer of Mr. Gould from the temporary to the perimanent roll, it was necessary for the Commissioners to make another transfer, and accordingly Mr. Richard Doerfling, who held the clerical position, was made draughtsman in the highway extension service at a salary of \$5 per day.
